

## Certificate of Achievement

# Dhyeya Aneesh

has completed the following course:

**HOW TO GET INTO AI**

**UNIVERSITY OF LEEDS, CLICK START AND INSTITUTE OF CODING**

This course explored AI's history, current applications, and future impact, and how to leverage this technology responsibly and effectively. Learners considered significant milestones and advancements in AI, including the development of large language models like ChatGPT.

2 weeks, 4 hours per week

**Dr Sam Wilson**

School of Computing, University of Leeds  
University of Leeds

The person named on this certificate has completed the activities in the attached transcript. For more information about Certificates of Achievement and the effort required to become eligible, visit [futurelearn.com/proof-of-learning/certificate-of-achievement](https://futurelearn.com/proof-of-learning/certificate-of-achievement).

This certificate represents proof of learning. It is not a formal qualification, degree, or part of a degree.

## Dhyeya Aneesh

has completed the following course:

### HOW TO GET INTO AI

UNIVERSITY OF LEEDS, CLICK START AND INSTITUTE OF CODING

**86%**  
OVERALL  
SCORE

This course explored AI's history, current applications, and future impact, and how to leverage this technology responsibly and effectively. Learners considered significant milestones and advancements in AI, including the development of large language models like ChatGPT.

#### STUDY REQUIREMENT

2 weeks, 4 hours per week

#### LEARNING OUTCOMES

- Explain what AI is.
- Describe the history of artificial intelligence.
- Discuss some of the ethical implications of artificial intelligence.
- Describe the skills are needed for a career working with artificial intelligence.
- Produce a personal plan to acquire those skills.

#### SYLLABUS

In this course, you will learn how to navigate the dynamic field of artificial intelligence (AI), exploring its applications and the evolving landscape of AI-related careers. You'll learn to understand various AI techniques, from artificial intelligence engineering to data science, gaining insights into their applications and ethical considerations. Get ready to acquire the skills that will propel your career in this rapidly evolving field!

- A brief history of AI
- Artificial Intelligence and employment, bias and the environment
- AI, intellectual property and regulation
- Assistive technology
- Transferable skills
